

Academic Policy
Awarding of High School Credits

The Palau High School pre-test and final exam will be accepted as a PCC Math Placement test for students who achieve 70% or higher on such tests. Either condition shall be met:

1. Palau High School College Transitional Math pre-test score of 70% or higher, **or**
2. Palau High School College Transitional Math course final exam score of 70% or higher

Student with above score is exempt from PCC's math placement test.

Any Palau High School student who enrolled at Palau Community College with a score of 70% or higher from the PHS College Transitional Math pre-test or PHS College Transitional Math course final exam may receive credits to fulfill MA103 course. To receive credits for MA103, one must register and enroll into MA103-9 to receive credits that will allow the course to be officially recorded in a student transcript. This may either fulfill a math core requirement of a degree program or fulfill a pre-requisite requirement for any college math required in a degree program

PHS official math scores must be sent from PHS to PCC's Admissions and Records through Chief of School Management, Ministry of Education.
