Fall 2019 Semester Ends with Appreciation

Dean of Academic Affairs Robert Ramarui and Associate Dean Mari-
anne Temaungil with faculty during convocation ceremony

As the fall 2019 semester comes to an end, the College, and most especially Academic Affairs, would like to take this time to acknowledge and thank the faculty and Academic Affairs staff for all their hard work and dedication to help our students be successful. During the semester, not only did faculty devote much time to the students and their learning needs, but also spent time on reviewing and improving their programs and departments. The Faculty Senate Association has new officers who have been actively devoting time and energy seeking ways to support students, faculty and Academic Affairs and we thank them also for their hard work.

We would also like to give sincere thanks to the Student Services division, and most especially the Director of Student Life and the advisors/counselors, for helping to track down students and keep them focused on their studies. A big thanks to all other PCC areas for doing their part in assisting us too.

Final exam week is drawing to a close with final grades to be submitted on Monday, December 9th. The faculty and staff at Academic Affairs would like to wish all students the best and urge them to have a happy but safe holiday break. Don't forget to pre-register for spring courses! We look forward to seeing each and every one of you return for the 2020 spring semester! CONTRIBUTED BY ASSOC. DEAN TEMAUNGIL

READERS:

FINE GARDENING MAGAZINE

Fine Gardening Magazine is packed with ideas and photos to inspire your imagination, plus the know-how to apply workable ideas to your specific plot of land. Learn about plants that work in your region by guiding you to the right plants for your zone and soil conditions and by showing you how to care for and maintain them. From pruning to potting, starting seeds to dividing mature plants, Fine Gardening shows you the techniques essential to garden care. Fine Gardening provides solutions to enhance problem areas and practical ways to work with nature plus friendly ways to deal with pests, improve your soil improvement, and to compost. You'll find practical advice for dealing with dry shade, designing your landscape, and jazzing up your border.
