**PCC 15-YEAR INSTITUTIONAL MASTER PLAN 2009-2024**

The Institutional Master Plan provides the direction of the College to enhance and provide more programs and services as well as the structural improvement of facilities for student access and success. The Plan also clarifies the visioned directions of integrated planning and decision-making as the College leadership and all College entities work together to achieve college-wide improvements and build endowment capacity.

**Strategic Direction 1: Student Success**

PCC will intensify its effort to enhance existing programs and services, as well as develop new ones, all in an effort to improve student success.

**Strategic Direction 2: Institutional Culture**

The institutional culture of PCC will be one that embraces planned changes to continually improve and links the mission and vision in guaranteeing quality and excellence.

**Strategic Direction 3: Resources**

The College will diversify and increase resources to provide quality programs and services, facilities, technology, and human resources to support its mission and goals. The College will be prudent in the allocation of resources to support operations and in support of its short, medium and long range plans in line with the strategic directions and mission of the college.

**Strategic Direction 4: Culture of Evidence**

The College will provide data driven assessment which generates accurate and reliable information, identify specific evidence of its efforts in strategic areas, analyze that evidence, and use its findings to make planning and resource allocation decisions as the basis for continuous improvement.

## INSTITUTIONAL LEARNING OUTCOMES (ILOs)

**PHI THETA KAPPA INTERNATIONAL HONOR SOCIETY**

PCC Chapter: (BETA OMICRON ZETA CHAPTER) – Chartered March 3, 2006

Phi Theta Kappa is an International Honor Society for Community Colleges. The purpose of Phi Theta Kappa shall be to recognize and encourage scholarship among two-year college students. To achieve this purpose, Phi Theta Kappa shall provide opportunity for the development of leadership and service, for an intellectual climate for exchange of ideas and ideals, for lively fellowship for scholars, and for stimulation of interest in continuing academic excellence. Phi Theta Kappa was founded in 1918 by two-year college presidents in Missouri. The founders were seeking to recognize scholastic achievement by their students, and to establish a common purpose and standard for honors organizations on their different campuses.

**Eligibility Requirements:** A Student must have a cumulative grade point average (CGPA) of 3.5, and has completed at least 12 credit hours at Palau Community College. Interested students may contact Phi Theta Kappa advisors@ 488-2690, or the Office of Student Life.

## FEDERAL TRIO PROGRAMS

The Federal TRIO Programs are educational opportunity outreach programs designed to motivate and support students from socioeconomically disadvantaged backgrounds. TRIO includes six outreach and support programs targeted to serve and assist low-income, first generation college students and students with disabilities to progress through the academic pipeline from middle school to Post baccalaureate programs. TRIO also includes a training program for directors and staff of TRIO projects, and a dissemination partnership program to encourage the replication of adaptation of successful practices of TRIO projects at institutions and agencies that do not have TRIO grants.

### Upward Bound Program (UB)

Upward Bound provides fundamental support to participants in their preparation for college entrance. The program provides opportunities for participants to succeed in their pre-college performance and ultimately in their higher education pursuits. Upward Bound serves: high schools students from low-income families and high school students from families in which neither parent holds a bachelor's degree. The goal of Upward Bound is to increase the rate at which participants complete secondary education and enroll in and graduate from institutions of postsecondary education. Upward Bound provides academic instruction in mathematics, laboratory sciences, English: literature & composition, and foreign language, tutoring, counseling/advising, mentoring, cultural enrichment, and work-study programs, etc. Eligible students to apply must have completed the 8<sup>th</sup> grade, be between the ages of 13 and 19 and have a need for academic support in order to pursue a program of postsecondary education. All students must be either from low-income families or be potential first-generation college students.

### Upward Bound Math & Science (UBMS)

Upward Bound Math & Science helps students from low-income families to strengthen math and science skills. The goal of the program is to help students recognize and develop their potential to excel in math and science and to encourage them to pursue postsecondary degrees in math and science. Program services include: summer programs with intensive math and science training; year round counseling and advisement; exposure to university faculty members who do research in mathematics and the research under the guidance of faculty members or graduate students, who are serving as mentors.

### Educational Talent Search Program (ETS)

The Educational Talent Search program identifies and assists individuals from socioeconomically disadvantaged backgrounds who have the potential to succeed in higher education. The program provides academic, career, and financial counseling to its participants and assists them to graduate from high school and continue on to the postsecondary institutions of their choice. Talent Search also serves high school dropouts by encouraging them to re-enter the education system and complete their education. The goal of Talent Search is to increase the number of socioeconomically disadvantaged youths who complete postsecondary education programs. Eligible applicants are students between the ages of 11 and 27 and have completed the fifth grade. In any given project, two-thirds of the participants must be first-generation college students from low-income families.

### San Diego State University (SDSU) Programs

The Bachelor of Arts in Liberal Studies program is offered in collaboration with the Center for Pacific Studies at Interwork Institute/SDSU, the Undergraduate Division at SDSU and Palau Community College. This course of study is designed to provide knowledge in multiple subjects to elementary and secondary educators.

The Masters of Arts degree offered in collaboration with the Center for Pacific Studies at Interwork Institute/SDSU, the Department of Administration, Rehabilitation, and Postsecondary Education within the College of Education at SDSU and Palau Community College. This program is designed for Education and Human Services Professionals desiring to earn a graduate degree focusing on leadership and administration.

### Operations and Maintenance Improvement Program (OMIP)

The OMIP Training Program was established at Palau Community College with the expressed goal of establishing a permanent short-term training program for workers in the area of infrastructure operation and maintenance. The program concentrates on assessment and training of government/semi-government employees working in infrastructure, operation, maintenance and utility related fields.

### Penn Foster Career School -Thomson Education Direct (former)

Penn Foster is one of the oldest and largest distance learning institutions in the world. The school provides programs and services that are designed to meet the life-long learning needs of the adult learner. Programs of study lead to career-specific diplomas.

### National Occupational Competency Testing Institute (NOCTI)

The National Occupational Competency Testing Institute (NOCTI) is the foremost provider of occupational competency examinations to business, education, industry, government, and military in the United States. These examinations are offered at two levels: Job ready and the experienced worker. NOCTI assessments can assist educators and employers in identifying occupational skills required of entry level employees or for experienced workers to move ahead in their fields. Palau Community College is an approved NOCTI Area Test Center and is responsible for coordinating and administering NOCTI examinations in Palau.

### Pacific Islands University (PIU)

Pacific Islands University (PIU) is a Christian university offering certificates, diplomas, and degrees in biblical studies. Working in collaboration with Palau Community College, PIU's Palau Teaching office is located on the PCC campus and uses PCC's facilities for its courses. PIU students in Palau can take their general education and elective requirements at PCC. PCC students can take certain PIU courses to meet their program requirements.

## CONTINUING EDUCATION PROGRAM

The Continuing Education Division (CE) serves as an outreach arm of the college responsible to sponsor activities including non-credit and short-term training designed to meet pre-service and in-service needs of the community. Continuing Education provides programs and services that empower the community to meet its growing and changing educational and training needs.

1. CE serves the community by offering non-credit programs such as pre-service training for those who are looking for jobs, in-service training for those who are employed and need to enhance and upgrade their skills; workshops, seminars, conferences, conducting community surveys, or apprentice training for persons regardless of their age or previous education, and who are not concerned with earning academic credits but wish to enrich their lives and improve their personal efficiency.
2. CE provides one-on-one advising, counseling and guidance for people interested in acquiring entry-level skills or for employees who need to upgrade themselves.
3. CE offers summer programs such as keyboarding, computer applications, mathematics, English reading and writing, music, art, camping, marine science, and Internet exploration for school age children.

### Enrichment or Non-Credit Programs

Individual programs are developed based on specific requests made by individuals or groups for their immediate and/or long term needs. CE customizes the programs to fulfill the needs of the customers. However, due to high costs of materials, trainers and facilities, CE sets the minimum number of participants at ten (10) for each program offered and reserves the right to change this number. Certificates of enrichment/completion are awarded to individuals who fulfill established program requirements.

### Apprentice Training Program

Apprentice training program offers an opportunity for anyone who lacks the skills to work and want to learn the skills under an expert trainer. Participants' commit themselves to work under an established agreement between PCC and a local agency that offers the training sought to register in the program and be placed on the work site. The training is free and the participants who undergo the training will not receive any compensation from either PCC or the agency providing the training. However, the participant will learn as much under close and direct supervision of a selected staff from the agency providing the training. Participants will be assessed of their skill level after the training and awarded a certificate of completion showing their competency level on the skills they have acquired from the training.

### Adult High School

The PCC Adult High School, established in Fall 2000, serves members of the community who have not earned high school diplomas or its equivalent. The program offers two tracks toward a high school diploma: a terminal program for those in the work-force or those planning to enter the work-force after completion of the program, and another track individuals for those desiring entry into post-secondary institutions. Working in collaboration with the Ministry of Education, the Adult High School program serves Palauans of 18 years or older who choose not to go back to a regular high school or to enroll in the GED program.

## COOPERATIVE RESEARCH EXTENSION (CRE)

The Cooperative Research & Extension (CRE) Department's mission is to collaborate with partners and clients to generate, develop, and disseminate practical, relevant, and sustainable technologies and knowledge in agriculture, environment, food and human sciences to benefit the people of Palau.

CRE Department implements the Agriculture Experiment Station (AES), Cooperative Extension Service (CES), and Residential Instruction (RI) of the College of Micronesia Land Grant Programs in Palau. CRE's programs are done in a multi-disciplinary approach through the four main divisions:

### 1. AGRICULTURE DIVISION

- Agriculture Science
- Integrated Pest Management
- Tissue Culture
- Sustainable Agriculture
- Germplasm conservation
- Cultural Management

### 2. NATURAL RESOURCES AND ENVIRONMENTAL EDUCATION DIVISION (NREED)

- Marine & Environmental Education
- Water Quality Program
- Aquaculture

### 3. FAMILY AND CONSUMER EDUCATION DIVISION (FaCE)

- Food Technology Training
- Food Security
- Root crops and sea food processing

### 4. EXPANDED FOOD AND NUTRITION EDUCATION PROGRAM (EFNEP)

- Youth & Adult EFNEP
- Food Safety and Nutrition

## Research and Development Station (R & D)

The Research and Development Station in Ngermeskang, Ngaremlengui, serves the need of the Republic and the region in the area of agricultural research and experiment. At the R&D Station, the numerous research and experimental projects in agriculture, aquaculture, and the environment use practices that are both sustainable and environmentally sound. The public is welcome to visit the R&D Station to view and learn from these projects.

## Multi Species Hatchery

On July 14, 2010, PCC inaugurated the state-of-the-art multi-species hatchery at Ngermetengel, Ngaremlengui State. This facility was established to support PCC's active role in the development of aquaculture in the country. At present, there are an increasing number of individuals who are interested in farming various aquaculture commodities; however, the supply of locally produced fingerlings is very limited. Therefore this

multi-species hatchery is expected to augment the seedstock requirement of the prospective fish farmers in the country. In addition, this hatchery will also be utilized as a demonstration and training facility to clients and the community who are interested to learn and develop their skills in the seed production of marine organisms.

# INSTITUTIONAL ASSESSMENT

## Formulate, Assess, Measure, Evaluate, Develop (FAMED)

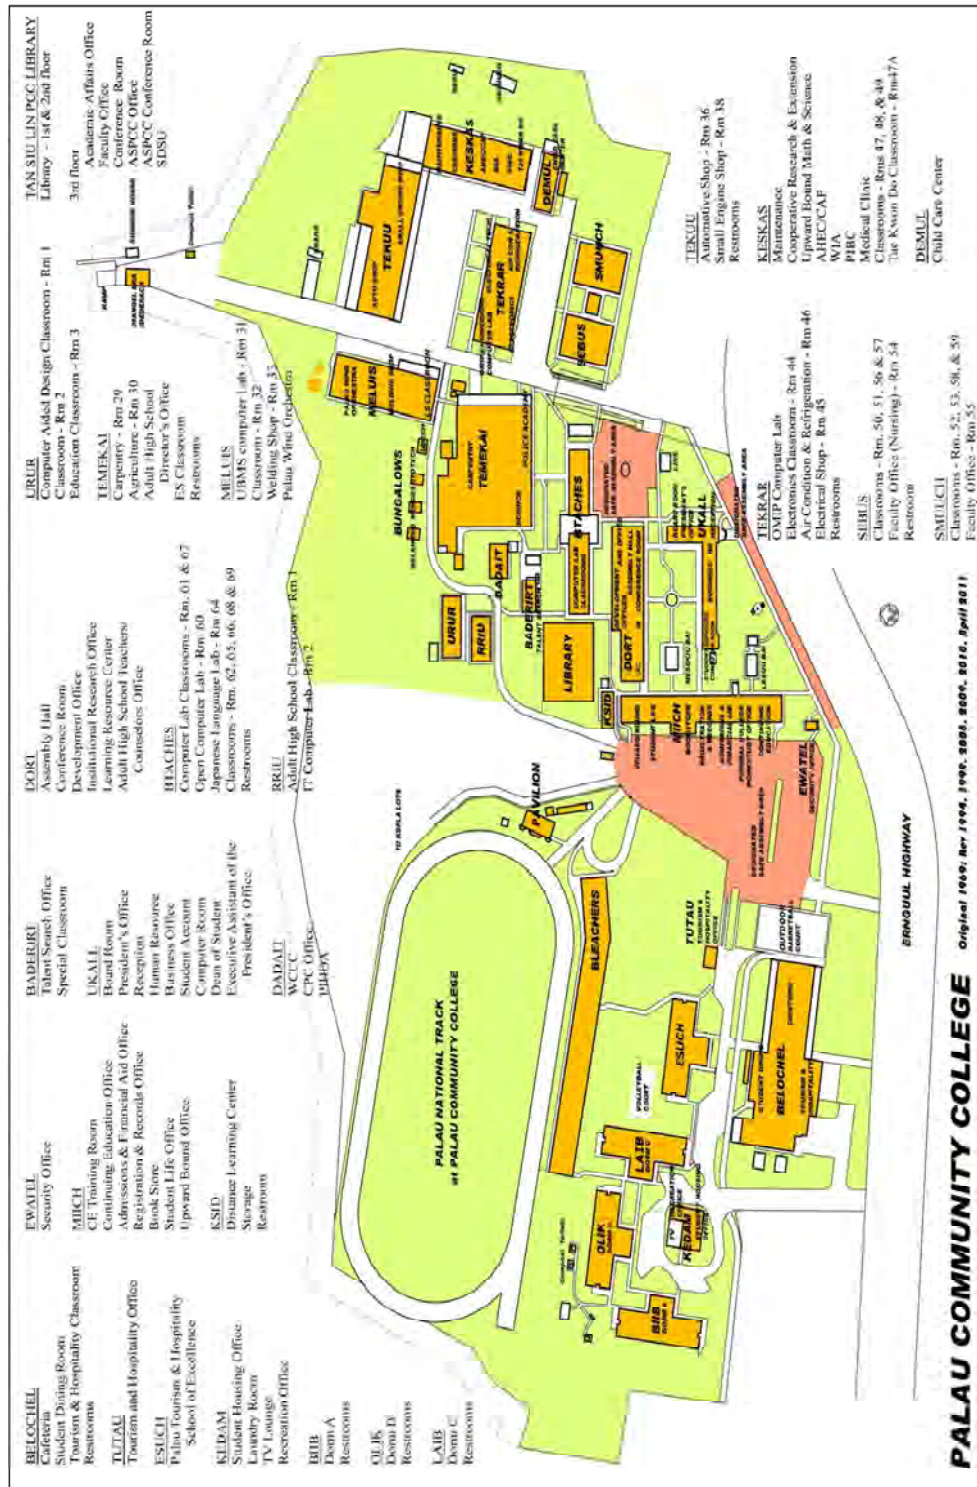

The FAMED Process is the institutional assessment, planning and implementation process. This process requires all governance structures, including those at academic and non-academic programs; department and program levels to evaluate on a regular basis their services and overall effectiveness.
