

Format NCP NEW ACADEMIC CERTIFICATE PROGRAM PROPOSAL

I. Rational

To create required program description and program learning outcome(s) for the General Agriculture Certificate Program.

II. Academic Certificate Program Description

The certificate program is designed to provide students with a broad understanding of the science and practices of crop and animal productions. It aims to improve the knowledge of students in general animal husbandry with emphasis in poultry and swine raising, the art and science of growing horticultural crops, and understand and learn the factors affecting growth and development of cultivated crops.

III. Academic Certificate Program Learning Outcomes

Upon completion of the certificate program, students will be able to:

 Acquire knowledge and skills in agricultural productivity through raising farm animals and horticultural crops.
