

Assessment Impact by Course Objectives
Palau Community College
Program (CPH) - Community & Public Health

Program (CPH) - Community & Public Health

CLO: CPH 112 - Alcohol Control: CLO 1

Recognize the significance of peer pressure even in the first approaches to alcohol consumption.

CLO Assessment Cycle: 2013 - 2014 (Fall 2013)

CLO Status: Active

Means of Assessment			
Means of Assessment	Expected Student Performance	Notes	Active
Recognize the significance of peer pressure even in the first approaches to alcohol consumption. Signature assignment: Final Exam	70% of the students assessed will perform at the proficiency level.	The CPH program is a new program which had adjunct faculty teaching the courses the first academic year. As such, the adjunct instructor was not able to assess the course. With the full time position of program head now filled, the courses are now being assessed on a regular basis.	Yes

Results			
Summary of Data Collected	Use of Results	Follow-Up	Semester Assessed
No Results reported.			

CLO: CPH 112 - Alcohol Control: CLO 2

Discuss and describe the influence of role models in the home, in the community and at school in the determination of the “first time” experimenting with alcohol.

CLO Assessment Cycle: 2013 - 2014 (Fall 2013)

CLO Status: Active
