Demonstrate understanding of the shock process and the correct procedures in the treatment of shock. <b>Signature assignment:</b> Midterm Exam	70% of the students assessed will perform at the proficiency level.		Yes

### Results

Summary of Data Collected	Use of Results	Follow-Up	Semester Assessed
Midterm Exam - 01/16/2015 - CLO5: 51% (20 of 39) of the students assessed reached proficiency level. <b>Expected Student Performance Met:</b> No <b>Related Documents:</b> <a href="#">HP181.CLO5.PDF</a>	01/16/2015 - CLO5: Only 51% of students assessed reached proficiency level. This section covers the condition known as shock. This is a concept that might be difficult for some students especially those that are visual learners or those who do not have a good understanding of the human body and how it functions. Unlike other injuries that you can examine and treat, students learn to observe signs and symptoms that would indicate that the victim is in shock.  Plan: Use instructional aids (videos, models, diagrams, etc) to better illustrate how the human body functions and factors that lead to shock. Will monitor and review on the next assessment to see if there is improvement.		2014 - 2015 (Fall 2014)
Midterm Exam - 12/30/2013 - 75% of the students performed at the proficiency level. <b>Expected Student Performance Met:</b> Yes <b>Related Documents:</b> <a href="#">hp181midterm.pdf</a>	12/30/2013 - No action needed at this time. The department will continue to offer the course, assess the course and changes will be made when need arise.		2013 - 2014 (Fall 2013)

### CLO: HP 181 - First Aid / CPR: CLO 6

Discuss different types of wound and demonstrate procedures to stop bleeding.

**CLO Assessment Cycle:** 2014-2015 (Spring 2015)

**Inactive Date:** 02/16/2015

**CLO Status:** Inactive

### Means of Assessment

### Results

Results			
Summary of Data Collected	Use of Results	Follow-Up	Semester Assessed
Final Exam - 01/16/2015 - CLO6: 59% (22 of 37) of the students assessed reached proficiency level. <b>Expected Student Performance Met:</b> No <b>Related Documents:</b> <a href="#">HP181.CLO6.PDF</a>	01/16/2015 - CLO6: Only 59% reached proficiency level. This assessment covered 2 different chapters; Bleeding and Wounds. Assessing these two chapters together caused some confusion. They both deal with wounds but one focuses on stopping the wound from bleeding, the other focuses on treating a wound which includes cleaning and bandaging a wound to prevent infection.  Plan: Assess these two chapters separately so there is no confusion. Then combine the results of both assessments to meet the requirement of CLO6.		2014 - 2015 (Fall 2014)
Final Exam - 12/30/2013 - 71% of the students assessed performed at the proficiency level. <b>Expected Student Performance Met:</b> Yes <b>Related Documents:</b> <a href="#">hp181finals.pdf</a>	12/30/2013 - No action needed at this time.
