PCC to Celebrate 55th Commencement Exercises

55th
Commencement
Exercises

Friday, May 18, 2018
10:00AM
PCC Cafeteria
Koror, Republic of Palau

Accredited by Accrediting Commission for Community and Junior Colleges (ACCJC)
of the Western Association of Schools and Colleges (WASC)

Palau Community College will be celebrating its 55th Commencement Exercises and 25th under RPPL 4-2 this coming Friday, May 18, 2018 at 10:00 am at the PCC Cafeteria. Over a hundred students from PCC and Adult High School are expected to graduate. The college is inviting the community to its 55th Commencement Exercises to commemorate and recognize the achievement of the PCC graduating class of 2018.

This year, the Palau Community College will be commemorating 25 years since March 19, 1993, when the Republic of Palau President Kuniwo Nakamura signed into law RPPL 4-2. This law established Palau Community College. On April 2, 1993 Micronesia Occupational College officially became Palau Community College, a national college with its own governing board.

The college is proud to celebrate this year's momentous occasion marking the 25 year milestone as the Republic's only institution of higher education.

For more information about the 55th PCC Commencement Exercises, please contact Graduation Committee Chair, Robert Ramarui at 488-2470/2471 ext. 245 or Todd Ngiramengior at ext. 225.

ROC-Taiwan Ambassador Visits PCC

Left to Right: Dean Robert Ramarui of Academic Affairs, Director Tchuzie Tadao of Development Office, PCC President Dr. Patrick U. Tellei, ROC Taiwan Ambassador Wallace M. G. Chow, Third Secretary Steven H. W. Kang, PCC CRE Vice President Thomas Taro, and Dean of Students Sherman Daniel

On May 10, 2018 Republic of China-Taiwan Ambassador Wallace M. G. Chow visited Palau Community College. President Tellei gave a special presentation that provided comprehensive overview of the college mission, accreditation status, institutional learning outcomes, strategic directions, assessment process, personnel statistics, ROC-Taiwan language instructors, enrollment and graduate summary, various federal programs, college endowment, pension plan program, and college future projects.

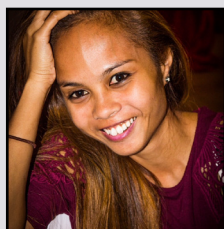

Ambassador Chow was able to tour the campus with President Tellei and Dean Robert Ramarui prior to a lunch break.

Ambassador Chow thanked President Tellei and college administrators for the valuable information and a warm hospitality extended to him and his staff.

Palau Community College is an accessible public educational institution helping to meet the technical, academic, cultural, social, and economic needs of students and communities by promoting learning opportunities and developing personal excellence.

PCC CELEBRATES 25 YEARS OF SUCCESS! *ALUMNI PROFILE*

Aquilla Masami

*Class of 2010
Liberal Arts*

My name is Aquilla Masami and I'm currently working as an accountant for Palau Public Utilities Corporation. I have worked for PPUC since March 2015. I graduated from Palau Community College in 2010 with an Associate of Arts Degree. I later graduated from the University of Hawaii at Hilo with a Bachelor of Business Administration degree. I chose PCC as the stepping stone for my post-secondary education simply because I wanted to experience college life while still having the comforts of home. PCC is an institution accredited by WASC - so my credits could be conveniently transferred to a four-year university. I did not have a job on campus nor did I have an internship during my PCC term but I did have workstudy. I was a Teacher's Assistant at Koror Elementary School. I believe it was for only one semester. Although I didn't have a internship, I was fortunate enough to receive PNSB's Summer Fellowship Award while attending UH Hilo. The award made it possible for me to return to Palau to attend summer internship program. I worked for Surangel & Sons Company, mostly with the accounting department. All the instructors I had were amazing, but the one who stood out the most is Mr. Joe Chilton. His classes were never dull and he always made learning a worthwhile experience. I enjoy the small class sizes, with a low-student teacher ratio, instructors were usually accessible. Students usually got the support and the attention they needed in order to excel. I have always been a shy, reserved person. I had trouble interacting with people I hardly knew but attending PCC allowed me to socialize with people outside of my social circle. After PCC, I took a year-long break and spent time with my family. Most days I would help my mom with our small store. In August 2011 I left Palau to further my education. Right after I graduated from UH Hilo in Spring 2014, I returned back to Palau and started working at PPUC in 2015. Since then I've been fortunate enough to participate in several software training and other seminars. As an accountant, I'm responsible for entering

Continued Next Section

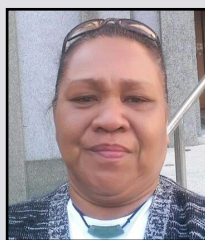

billing related transactions into our accounting system. I also take part in monthly reconciliations to ensure all financial transactions are accounted for, and are recorded accordingly. Other roles would include processing and monitoring bank transactions, generating financial reports, and assisting our CFO and Accounting Manager with other accounting related activities. I'm not entirely certain what the future will bring, but I plan to work hard so that I may better serve the community. I enjoy spending time with my family, taking photos, and surfing the internet to learn about many different things (latest news, technologies, cooking recipes, creative DIY projects, etc.). I also enjoy taking my dogs swimming. College is a wonderful, life-changing experience. Embrace it and soak up all the knowledge that's being put in front of you. Participate in school activities and build lasting relationships with your peers and instructors/professors. The knowledge you retain and the network you build will have great benefits in the future.

Emmaus Kinder visits PCC Library

Emmaus Kindergarten children visited Palau Community College Tan Siu Lin Library on Thursday, April 26, 2018. The children were taught how to get books and when they should return the books. The children made library cards and chose books they wanted to read. They were very enthusiastic being able to access library services.

Newest Contributor PCC Endowment

Ella Rdiall

Palau Community College would like to recognize its newest Endowment Fund contributor, Ella Rdiall. Ms. Rdiall works for Melekeok Elementary School. Thank you, Ms. Rdiall, for your contribution to Palau's only institution of higher learning! Your donation will help sustain the future stability and programs of Palau Community College.

READERS:

SCIENTIFIC AMERICAN MAGAZINE

Scientific American (informally abbreviated SciAm) is an American popular science magazine. Many famous scientists, including Albert Einstein, have contributed articles to it. It is the oldest continuously published monthly magazine in the United States (though it only became monthly in 1921). Scientific American was founded by inventor and publisher Rufus M. Porter in 1845[2] as a four-page weekly newspaper. Throughout its early years, much emphasis was placed on reports of what was going on at the U.S. Patent Office.
