PCC CELEBRATES 25 YEARS OF SUCCESS! ALUMNI PROFILE

Jed Mamoru Gibson
Class of 2017
Elementary Education

My name is Jed Mamoru Gibson and I am 26 years old. I was a member of the PCC graduating class of 2017. I enrolled at PCC in Summer 2012 as a part time student because I was a full time teacher. My job required me to obtain a degree which gave me a great opportunity to be able to enroll. I did not have a job on campus because I was already a full time teacher when I enrolled. Yes, I did have my internship but it was at Koror Elementary School. Most of the instructors I had great and they made a difference in my profession, so I cannot just name one instructor who made

a difference to me. What I like most about PCC is how it was able to accommodate individuals who already have careers and offer them a chance to obtain their degrees. No, I did not join any extracurricular activities because of my full time job. PCC taught me many things and at the same time served as an enhancer to the knowledge I already had. Thanks to PCC I am able to perform well beyond my task at my job. After graduating from PCC, I continued working as a classroom teacher at Koror Elementary School. I am currently a classroom teacher. I teach 8th grade math and P.E. classes. I don't really know what the future has in store for me. People say the sky is the limit, but I enjoy my job and I love doing it. So do not be surprised if I remain a teacher until I retire. During my free time, I always fish with my son. C is for courage, H is for humility, A is for a perfect attitude, M is for motivation, P is for Perservere, I is for integrity and innovation, O is for optimistic, and N is for never giving up. These are what makes a CHAMPION!

SCIENTIFIC AMERICAN MAGAZINE

Scientific American (informally abbreviated SciAm) is an American popular science magazine. Many famous scientists, including Albert Einstein, have contributed articles to it. It is the oldest continuously published monthly magazine in the United States (though it only became monthly in 1921). Scientific American was founded by inventor and publisher Rufus M. Porter in 1845[2] as a four-page weekly newspaper. Throughout its early years, much emphasis was placed on reports of what was going on at the U.S. Patent Office.

Information Technology Symposium 2018

Left to Right: Tewid Rebluud, Tricia Pedro, Howard Charles Jr., Destiny Emesiochel, Kersten Dismas, and Information Technology Instructor Johvanna Yaoch

Information Technology Symposium was held at the Palau Community College Assembly Hall on Friday, May 11, 2018. The Information Technology students: Tewid Rebluud, Tricia Pedro, Howard Charles Jr., Destiny Emesiochel, and Kersten Dismas presented the projects that they've made. A redesigned website for Palau Energy Administration, developed an Android based survey, Seagrass in Palau Android app, and a Paradise of Nature Android App for the Palau International Coral Reef Center.

Dean Sherman Daniel welcomed everyone and introduced the Information Technology presenters. Tewid Rebluud started the presentation. Present for the presentation were Palau Energy Administration staff, Palau International Coral Reef Center Staff, Ministry of Education Staff, Palau Community College administrators, faculty, staff, and students as well as the friends and the family of the presenters. Each student presented their parts as well as the process of each project rather well and detailed.

Dean Sherman Daniel thanked the students again and presented them with IOA-LSAMP Grant provided stipends for each student in the amount of \$480.

APPRECIATION

Dear Friends and Coworkers:

Thank you for your donations and support during my difficult time. It's heartwarming to know that you were all in my corner as I faced the loss of my mother. I am really thankful to work with such wonderful people.

With sincere thanks,

Diluboh
