Emergency Medical Technician Training Held PCC

Palau Community College to host the 3rd Emergency Medical Technician (EMT) Training for 8 weeks at PCC Continuing Education for Ministry of Justice Law Enforcement Officers and Palau Public Utility Corporation Safety Officer.

The first EMT training was conducted at PCC to law enforcement officers from Division of Fire & Rescue - MOJ and Airport Rescue & Fire Fighting - MPIIC in October 2015 through collaborative efforts between Palau Community College, Ministry of Justice, and Ministry of Health.

With the enactment of RPPL No. 10-9, which was signed by the ROP President Remengesau in July 2017, requires training and certification of emergency ambulance service personnel including a well equipped ambulance with all emergency medical supplies needed as required by regulation to be promulgated by the Ministry of Health. As a result, the 2nd EMT training was conducted by LCDR Andreas Stiller from CAT Palau 133-27 and Mr. Edward Cabllero from Kapiolani Community College at PCC Continuing Education from November 2017 to February 2018 to train additional law enforcement officers from Division of Fire and Rescue. Since then, two (2) officers, Nathan Adelbai and Kayla Reblud from the Division of Fire and Rescue attended EMT assistant instructor training at the University of Hawaii - Kapiolani Community College from February to May, 2018 as part of train-the-trainer initiative.

This year's training will run from June 15 to August 14, 2018. This eight-week training will cover didactic and clinical topics such as the Human Body, Lifespan Development, Pharmacology, Patient Assessment, Airway Management, Shock Management, BLS Resuscitation, Neurological Emergencies, and Endocrine and Hematology. **EMT**, Continued on Page 3

Upward Bound Orientation

Upward Bound students during Summer Orientation

On Friday, June 8, 2018 Palau Community College Upward Bound Program held their summer orientation at the PCC Assembly Hall. Students met with Upward Bound Counselors/Advisors to discuss activities and services, schedules of activities, attendance policy, and Summer Work Study.

Students were informed about instructional classes for freshman to juniors, and college orientation for the seniors, tutoring services, counseling/advising services, work study program, and workshops. Students were also reminded them of their work ethics, job placements/assignments, work schedule, and their timesheets.

Upward Bound Program is funded by the U.S Department Education with a mission to provide fundamental support and opportunities for participants to succeed in their precollege performance and ultimately in their higher education pursuits. The program currently serves one-hundred and eleven (111) students from various high schools in Palau.

**Palau Community College Board of Trustees, President,
Faculty, Staff, and Students Welcome
Douglas W. Domenech, Assistant
Secretary Insular & International Affairs**

Palau Community College is an accessible public educational institution helping to meet the technical, academic, cultural, social, and economic needs of students and communities by promoting learning opportunities and developing personal excellence.

PCC CELEBRATES 25 YEARS OF SUCCESS!

ALUMNI PROFILE

Mayleen Ngiriou

Class of 2006

*Associate of Science - Elementary
Education*

My name is Mayleen Ngiriou, I am a Christian, and I believe that God is our creator, our beginning and the end. I had been happily married for 16 years and I have two beautiful daughters. My oldest daughter just recently graduated from Lassen Community College, and now pursuing her bachelor of art degree at Simpson University of Marine Science. My youngest daughter is still 8th grade at Koror Elementary School soon to be freshman. I was hired as a classroom teacher back in 1999, and one of the requirements is to have an AS degree in education. Therefore, I applied at PCC to pursue my education degree. I did not have a job on campus; however, I was full time teacher at Koror Elementary School. Yes, however, my intern was also at Koror Elementary School not on campus. One instructor that stands out above the rest of my instructors is Ms. Johvanna Yaoch. She was teaching my first computer class and during that time I am still having difficulties with computers. However, her teaching approach and humbled spirit helped made me enjoy her class and working with computers. Thanks to her, I learned required skills that enable me to use computers effectively to do my work. What I like most about PCC was the college accommodated class scheduling so that I was able to work full time and take required classes in the evening or over the weekend. Due to my full time job, I was not able to participate in any student organizations or extracurricular activities on campus. I could say that when I enter PCC the measurement of my knowledge and skills was measured as bucket half, after PCC, I am a bucket full and overflowing. After PCC, I continued working as a full time teacher, however, on September 24, 2014 I became Koror Elementary School Principal. I am now serving as the Koror Elementary School Principal and I am enjoying every minute and every second of it. I love my job! I enjoyed working with students and my school teachers and staff. We had gone through a lot of challenges but as a team and family, no challenges are too big. I am planning to work as a school principal until I retire. I enjoy fishing and farming, and if the weather or time does not permit for those activities, I love to read. Believe in yourself! You have made it this far. If you know how to read, write, add, and subtract, you can definitely succeed in PCC. Don't be afraid to ask question, take a risk if you see that it is beneficial for your success. If you fail, embrace failure, learn from it and move on. One cannot be successful if he/she does not fail at first.

Palau Head Start Cooks Participate in Summer Training

From June to July 2018, Palau Community College Continuing Education offered English class to Palau Head Start cooks as part of their Summer training program. The participants are also enroll in Basic Food Safety & Handling training offered by Palau Community College Cooperative Research and Extension starting June 25 to July 29, 2018. Instructor for Basic Food Safety & Handling is Mr. Dalton Thomas while Ms. Yvonne Ruloked teaches English Reading and Writing.

PCC Library Teen Space and Kids Korner receive new book donations

On Friday, June 8, 2018 PCC Associate Dean Marianne Temaungil donated books to the PCC Library Teen Space and Kids Corner. These corners needed books and Associate Dean Temaungil wanted the kids to have something to read this summer. The books donated ranged from 1st to 7th graders. Raven Kloulubak who is in charge of these corners along with the kids are excited and look forward to reading the new books.
