PCC AANAPISI Receives Grant Award for 2020-2021 School Year

Inset: PCC Board of Trustees Chairman Billy G. Kuartei, President Dr. Patrick U. Tellei, Vice President of Administration & Finance Jay Olegeriil, Dean of Students Sherman Daniel, and AANAPISI participants at Assembly Hall

On September 03, 2020 Palau Community College (PCC) Board of Trustees, President Dr. Patrick U. Tellei, Vice President of Administration & Finance and Dean of Students received a notification from the U.S. Department of Education Office of the Postsecondary Education regarding Asian Americans and Native American Pacific Islander Serving Institution (AANAPISI) grant award for academic year 2020-2021 to fund PCC Student Services - Learning Resource Center program.

The grant award of \$250,000.00 will provides for student and academic support services. As such, PCC was recognized as an Asian American Native American Pacific Islander Serving Institution by the United States Department of Education and the funds will support student learning, professional and embedded tutoring, supplemental instructions in math and english, career & transfer counseling including academic and financial and economic literacy workshops to enhance and enrich students awareness. PCC is grateful to be one of the recipient of this grant award and thanked the U.S. Department of Education's Office of Postsecondary Education for much needed financial support.

PCC CRE Food Security Program Sustainable Upland Taro Harvest

PCC CRE continues with sustainable taro production techniques at R&D station in Ngeremlengui State

The program continues its project in developing sustainable upland taro production techniques by field experiments in PCC, R&D station. The results of the Second Season harvest showed conservation agriculture practices; minimum tillage and mulching with betel nut leaves could give rise to reliable yield and reduce soil erosion from 3-10 times at slope land. In addition, there is high potential to improve the soil quality by increasing soil organic matter content which is critical for sustainable and sufficient local food production. Overall, the results will be described in the sustainable land use for agriculture in the book that is planning to publish by PCC-CRE for dissemination and practical use of the community.
